

# Figure 3: Outline of proposed metrics and key features in the FE Performance Dashboard

Illustrative template and data

Subject to further development and testing, the Dashboard will include **additional functionality to help users navigate the data and use it effectively.**

For example:

- a short description of what each metric tells us, data sources, and date last refreshed for each metric, to support effective use and interpretation of the information
- breakdowns of a provider's performance against each metric to show how well providers are supporting particular groups of learners e.g. SEND learners
- a search facility for access to Dashboards for individual and groups of providers, for example by geographical area and provider type, to enable users to look across different Dashboards and compare outcomes/ identify where good practice exists

FE Performance Dashboard: Southway Further Education College			
Overall provider performance rating	2022 results	2023 results	Benchmark
Skills Measure (% learners moving into employment/ higher level learning)	tbc	tbc	tbc
Quality (latest Ofsted rating, based on inspection)	GOOD	OUTSTANDING	GOOD

**Key**

- Outstanding
- Good
- Potential concerns
- Significant concerns

Performance indicators	2021 results	2022 results	Benchmark
% Learners achieving a qualification (or non-qualification) who start it	%	%	%
English and maths measure/s (tbc)	%	%	%
Progression measure (% learners attaining their highest qualification level by achieving their FE qualification)	%	%	%
% Learners progressing into priority industry sectors	%	%	%
Learner employability	%	%	%
Employer experience	%	%	%

**Benchmarking data** to show how a provider is performing compared with other similar providers e.g. similar learner mix; labour market context

<p><b>Local labour market context data</b></p> <p>[Existing local context data e.g. local area deprivation index score, the provider's learner mix and provision mix; national &amp; local skills priorities that the provider is helping to deliver; provider specialisms]</p>
<p><b>Links to other performance data and strategic plans</b></p> <p>[Links to fuller/ related datasets that we publish, for example for 16–18 performance tables, National Achievement Rate Tables (NARTs), and Outcome-Based Success Measures (OBSMs); and to local strategic plans e.g. local LSIP/s, a provider's published Accountability Agreement (including their plan for delivering against local and national skills needs), provider website/ business plan]</p>

The **'local context'** section will help users interpret a provider's performance data on the Dashboard
